

I wanted to let you know how much I appreciate being able to access this station K Love. We don't have a local station in St Louis, MO so I listen to streaming audio. It would be a shame to lose access to quality Christian music and have it replaced by stations that could/would broadcast programming promoting things I would consider trash that you (FCC) fine stations for. A lot of the music out there is hate filled (cop killing, hurting yourself, self hate) and I don't want that type of music/programming to take over a station that fills such a wonderful spot in my day. Thank you for your time regarding this issue. Madonna Arnold
